

Healing Angels and IET Basic Night Classes Taught By Carmel O'Callaghan

I originally answered an advertisement in one of the national papers. The job description was someone to teach a healing angel class by night in a adult education college. I sent in my C.V. and was contacted and started teaching a couple of weeks later.

The class was for 8 weeks, 2 hours a night. The title was "Healing with The Angels". It's format was how to bring angels into your life. It included: Protection, Cleansing, Healing, Channelling, Card readings, and Angel meditations, usually with the Healing Angels of The Energy Field.

Weekly feedback from each student was gathered on how that week went for them. Some would have angel experiences and some would have situations where you could advise them on how angels could help. This opens the opportunity about healing - how to send healing and the promotion of IET as a healing technique. It is also a way of introducing the concept of energy and energy work, the power of positive thinking, and the law of attraction.

For this class, having an agenda is helpful, but the angels dictate the content each night.....

During the next term I would run the IET Basic course, where some would follow on and others join in.

It was a duration of 7 weeks: 6 nights of 2 hours and 7th night of 4 hours. The last is longer so that the students get a chance to do a full one on one treatment. The Agenda follows.

Working with this type of college, they pay me €40 an hour. The student pays for the manual. The college covers all other expenses.

The advantages: your name gets out there. Busier practise and a data base for future course you run outside the college.

No Advertising fees, no rental fees, no sundry fees of tea or coffee.

Out of 20 from last term, 5 have gone on to be Masters, 2 others have done intermediate and are ready for advanced.

Remember in these classes let your angels do the talking!! You will be amazed with what you hear yourself say.

Blessing to you all
Carmel.
